## **VISION, MISSION AND OBJECTIVES**

Consequent upon adoption of new International Health Regulation (IHR 2005), many specific functions were mandated for member countries including India. IHR requires all WHO member countries to have specific core capacities at all International Point of Entries (POE). India, in compliance to the IHR 2005, have been advancing in development of specific core capacities for routine measures and for surveillance and response during PHEIC at all designated International POEs.

The basic aim and objectives of this Organization is to control and prevent international spread of PHEIC in compliance to IHR, vis-à-vis, Indian Aircraft (Public Health) rules. We have the vision of *A World Safe and Secure from Infectious Diseases threats* by prevention, rapid detection, transparent reporting and mitigation of outbreaks through interconnected Global network.

The major theme of the response being Early warning system, creating awareness among people, training and education, information communication and extension methodology, screening at POEs, Vector Surveillance and Inter sectoral coordination & collaboration.

## **BACKGROUND AND HISTORY OF APHO, NEW DELHI**

The Airport Health Organizations came into existence in pursuance of The Aircraft (Public Health) Rules, 1954 framed under the Aircraft Act, 1934. The Airport Health Organization, Delhi primarily is a Public Health Organization. It is located at Mahipalpur, Opp Toll Plaza, Near AAI Complex, IGI Airport, New Delhi-110037. An Airport Health Officer (APHO) works under the overall control of the Director General of Health Services (DGHS), Govt. of India, stationed at the Ministry of Health & Family Welfare, Nirman Bhawan New Delhi. The DGHS in turn is assisted by DDG (IH) and ADG (IH). The APHO is assisted by other staff details of which are given below. The present building of APHO, Delhi was Inaugurated on 28th February 2009 by then Hon'ble Health Minister Dr. Anbumani Ramadoss. The Primary objective of this organization is to prevent International Spread of Diseases from one country to another as per International Health Regulations of World Health Organization. This is achieved by Implementation of Following Acts/ Rules:-

- 1. The Epidemic Disease Act.**
- 2. The Indian aircraft Act, 1934.**
- 3. IHR (2005).**
- 4. The Indian Aircraft (Public Health) Rules 1954.**
- 5. Food standards and safety authority of India Act, 2006.**

## **ACTIVITIES PERFORMED AT APHO, DELHI**

### **1. Surveillance of International Passengers and Crew for yellow fever disease--**

As per the standard procedure all the incoming international passengers of all International flights are screened by the immigration officials for history of travel to yellow fever endemic countries within last 6 days of arriving in India. Thereafter all the passengers who have embarked from or have transited through the yellow fever endemic countries are screened for having proper protection against yellow fever. The Immigration officials are being trained by the Medical Officers of APHO, Delhi on regular basis for this purpose.

### **2. Quarantine of Passengers:**

All those passengers, who have embarked from or have transited through the yellow fever endemic countries during six days prior to arriving in India and they are not having proper vaccination against yellow fever, are quarantined as per the Indian Aircraft (Public Health) Rules, 1955. During the period of quarantine the passengers are medically observed for various signs and symptoms of yellow fever disease.

### **3. Yellow Fever & Polio Vaccination:**

International vaccination center for Yellow fever, APHO, Delhi provides vaccinations for Yellow Fever and Polio to the international passengers on request who are travelling to/ through the yellow fever endemic countries or Polio Endemic Countries whichever the case.

### **4. Public Health Clearance of Dead Body/Human Remains-**

The Public Health Clearance of the Dead Body/ Human Remains imported to India are being provided as in accordance with "THE AIRCRAFT (PUBLIC HEALTH) RULES, 1954 PART 4" officials of Airport Health Organization after checking the necessary documents in order to prevent the spread of any communicable disease of International concern in the country.

### **5. Activities related to Vector Surveillance :**

a) Vector Surveillance : Vector control activities primarily for Aedes aegypti mosquito, which is vector of yellow fever disease, is undertaken by gulf Pest Control Services under DIAL. APHO staff with the assistance from National vector borne disease control program undertakes periodic monitoring of the vector control activities to ensure that

aedes aegypti index is regularly maintained as per the prescribed international norms. National Vector Borne Disease Control Program, Delhi undertakes independent surveys every quarter. On the basis of the monitoring by NVBDCP feedback is given to DIAL for taking appropriate vector control measures.

b) Flight Dis-insection: surveillance of the aircraft disinsection details is undertaken for all the incoming international aircraft by examination of the General Declaration of Health and passenger manifest submitted by the Crew at the time of arrival to the Airport Health Organization.

## **6. Sanitary Inspection:**

International Health Regulations (World Health Organization) requires regular Sanitary Inspection in and around airport premises. Accordingly Airport Health Organization undertakes periodic sanitary inspection rounds at Terminal 1& II. Sanitary inspectors also assist in Vector surveillance, sanitary inspection of the Food outlets, and drinking water sampling for bacteriological testing by National Institute of Communicable Diseases, Delhi, for periodic surveillance of drinking water sources. Details were communicated to airport officials for undertaking appropriate measures.

## **7. VVIP Food Safety & Surveillance Duties:**

VVIP food surveillance duties are one of the prime responsibilities of APHO, Delhi at the National capital. Food surveillance activities are undertaken for both national and International Heads of States. Food surveillance activities are undertaken for visits of National VVIPs (Inside country and international visits) and International VIPs at the time of their visits to the National capital.

International Flights & Domestic Flights were undertaken for the VVIP. During the time of international visits procedure adopted for surveillance of food is planned in the coordination meeting with the PM security staff. Various activities are as follows:

- a. Sampling of the raw materials from the designated flight kitchen Stores.
- b. Sampling of Water from various areas of designated flight kitchen. Samples of raw materials are examined at the Delhi Public Health laboratory and bacteriological testing of water samples is done by NICD, Delhi
- c. Examination of the Perishable food items.
- d. Sampling and oral tasting of prepared food items for instant poison.
- e. Results of raw material and water samples collected are communicated to the respective flight kitchen before cooking process starts for the VIP flight.

## **8. Surveillance of the Food Outlets:**

As per the FSS Act 2006, APHO, Delhi (Local Health Authority) undertakes inspection of food outlets operating in the airport premises regularly. Lounges, snack counters and restaurants of establishments, who have contracts for serving food and drinks to the passengers and staff at International Airport. For Surveillance of Food samples and water samples are also being picked up for their testing at Designated Labs under the FSS Act, 2006.

## **9. Medical and Flight Emergencies: –**

A.P.H.O. doctors and paramedics are one of the designated health agency for the purpose of assisting during the time of various flight emergencies and is kept on vigil during the time of all minor/Full emergencies. APHO, Delhi is also involved in WIP movement, visibility stand by, weather stand by etc.

DIAL has contracted the Medical unit of Medanta (Medicity) for providing emergency medical services for the passengers and the staff deployed at new international terminal T3. Medical Unit at airport also arranges ambulance services at the airport for sick travelers.

## **10. Training Activities:**

### **» Immigration Officials**

As per the GOI instructions surveillance activities are undertaken primarily by the Immigration officials and then suspects are referred to the APHO, official. Periodic training to the Immigration officials is imparted to orient them about various steps for screening the passengers with regard to yellow fever.

### **» Training for Medical and para-medical staff:**

Training activities are being arranged for medical and para-medical staff i.e. field workers training, vector surveillance training, Training on Health Screening Procedures etc.

### **» Training for Post Graduate Medical students**

The relevant training is also provided to the students visiting APHO Delhi from different organizations as PG students from NIHF, Medical Colleges and Nursing Colleges and other organizations.

## **11 .Other Activities:**

- International Health Officer also participate as member for various technical issues with regard to health measures in Dte.GHS.
- Disaster Management Mock Drill- APHO, Delhi provides its expert opinion whenever Mock Drill is conducted by DIAL for Disaster Management.
- APHO staff provide logistic assistance to officials of Ministry of Health & FW during their departures and arrivals for official international visits.

## **EMERGENCY DUTIES**

1. Medical & Flight Emergencies- The APHOs are Public Health Organization and perform the public health related activities at the Airport. Every International Airport has health unit to take care any clinical emergency occurring onboard to the passengers or to the staff working at the Airport. In case the emergency is having large number of affected persons then the APHO works along with other control room officers and coordinate with other Government Health facilities for transportation and management of the health services needy persons.

2. Public Health Emergency of International Importance- Activities during the Public Health Emergencies Out Break e.g. COVID 19 Pandemic, Ebola Virus Disease, Yellow Fever Disease, MERS- CoV& Zika Virus Disease

- Activation of PHECP
- Coordination with other stakeholders.
- Functions as per guidelines for PHEIC.
- Training of stakeholders.
- Procurement and Deployment of additional manpower.
- Procurement of material required.
- Screening/ Quarantine/ Isolation/ Lab testing/ Transportation/ Contact tracing
- Coordination with National /state/ local agencies.
- Reporting.

Any work respect to the organization assigned by the APHO is to undertaken by the FW/HA/HI/ Health Officer/ Medical Officer.

**Form of accessibility of information** – A Manual/ Hand book titled “**POINT OF ENTRY, TECHNICAL FIELD MANUAL**” only for Technical Staff working in Airport Health Organizations, Port Health Organizations, Border Quarantine Organizations is available in Hindi & English (bilingual).

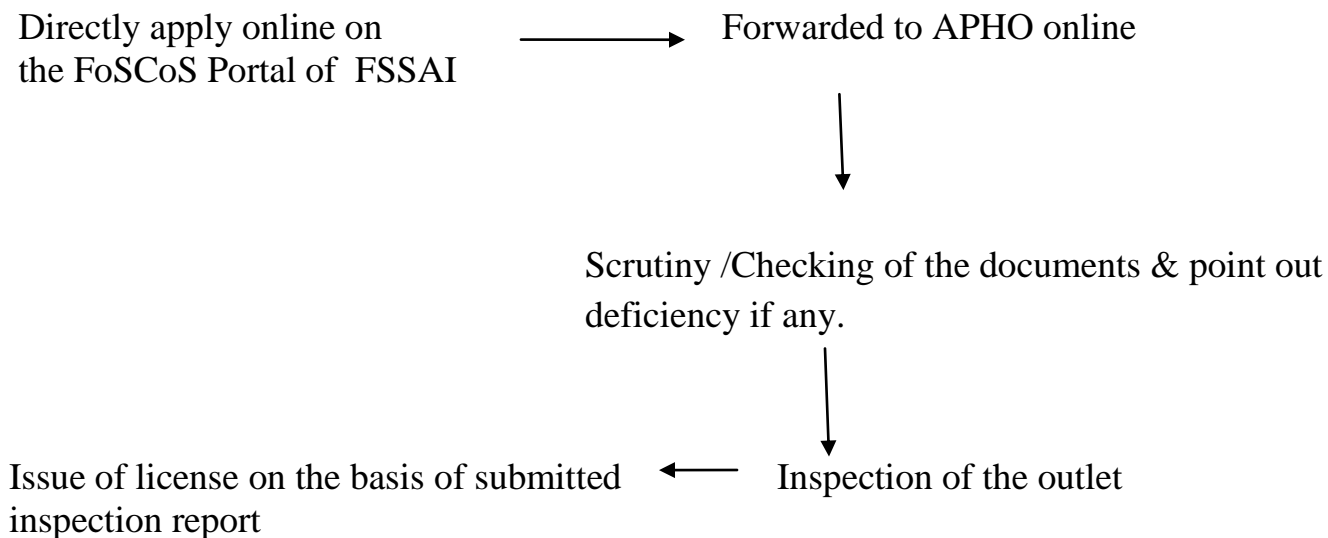

## Process of Decision Making

### 1. Quarantine of passengers coming from yellow fever endemic countries-

- The job of initial screening/ checking of yellow fever vaccination certificate is entrusted with the staff of Immigration Department, who are regularly trained by this office and they in turn will hand over the suspect passengers in MI Room of APHO, Delhi.
- The Medical officer/Health Inspector on duty will then scrutinize the YFV certificate of the passengers and take a decision for quarantine if needed.
- In case of any doubt final decision will be taken by **Airport Health Officer**.

### 2. Licensing of Food outlets in the Terminal Building of IGI Airport-

#### Process of Food outlet licensing under FSSAI ACT 2006

**Time Limit-** Normally 01 month from the date of application. However, step wise time limits have been framed by FSSAI.
