2.VISION, MISSION AND OBJECTIVES

Consequent upon adoption of new International Health Regulation (IHR 2005), many specific functions were mandated for member countries. IHR requires all WHO member countries to have specific core capacities at all international point of entries (POE). India, in compliance to the IHR 2005, have been advancing in development of specific core capacities for routine measures and for surveillance and response during PHEIC at all designated international POEs.

The basic aim and objectives of this Organization is to control and prevent international spread of PHEIC in compliance to IHR, vis-à-vis, Indian Aircraft (Public Health) rules. We have the vision of A World Safe and Secure from Infectious Diseases threats by prevention, rapid detection, transparent reporting and mitigation of outbreaks through interconnected Global network.

The major theme of response being Early warning system, creating awareness among people, training and education, information communication and extension methodology, screening at POEs, vector surveillance and Inter sectoral coordination & collaboration.
